8) NEW BUSINESS

a) Draft Infill Development Guide

McCarron led the Board through a discussion of the proposed Infill Study Implementation Plan. The Plan recommends creating a new R-6 Infill District for residential properties south of 11th Avenue. The recommendations include proposed regulations for setbacks, lot coverage, lot size, density, utilities, parking, accessory structures, inclusion, neighborhood design requirements, and affordability.

McCarron noted that the Steering Committee was still reviewing language for permitting paved parking in the front yard. The Board decided to defer to the Steering Committee's recommendation on the issue. The Board noted a few layout and wording changes, but had no comments or additions to the proposed recommendations.

b) Draft Residential Land Use Table

McCarron told the Board the Land Use Table was included in the packet because it reflects regulatory changes recommended in the Infill Study. McCarron explained the need for the change in structure and addition of the design requirements for specific uses in the table. She also reviewed the new proposed uses that currently are not permitted in the City. The Board felt that the changes were appropriate and had no comments or concerns.
