DORT Quality Goes Clear Through TO BEING CAR \$1035

You will note among DORT owners everywhere a strong regard for their car. When they speak of it they use terms that could only be inspired by sincere satisfaction.

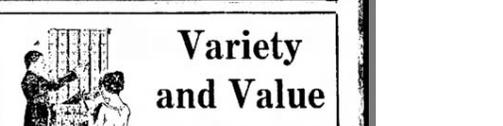

In every phase of motor service the DORT does not perform in a manner distinctly above the average.

Its mileage per gallon of gasoline, per quart of oil, per set of tires, is noticeably higher than usual.

Its construction is so simple that need for "going over" is infrequent. It is so arranged that when there does come necessity for adjustment or "tuning up" it is a simple task performed with ease and economy.
