

... evening or in the morning. The pre-
 liminary hearing in each case will be
 held next Wednesday.

STROKE OF PARALYSIS.

**Mr. W. B. Broadwell Overcome Yesterday,
 But is Improving Steadily.**

Yesterday evening about 5 o'clock
 Mr. W. B. Broadwell left his home at
 608 Sherman east to go to his garden.
 When a short distance from the house
 he fell and neighbors who saw him
 hurried to his assistance. They found
 him partially paralyzed on his right
 side and unable to speak. He was
 carried to the house and Dr. Sidlinger
 summoned.

There was a steady improvement in
 Mr. Broadwell's condition, and today
 he has recovered the use of leg and
 arm. He is still unable to talk, but is
 on the way to recovery. He is nearly
 73 years of age.
